

Best 100 Computer GK Questions and Answers for Everyone

GeneralKnowledge4u.com

1. Who is the father of computers?

Answer: **Charles Babbage**

2. Who is the brain of a computer?

Answer: **CPU**

3. What is the full form of CPU?

Answer: **Central processing unit**

4. How many arrow keys are there in a keyboard?

Answer: **4**

5. Which device displays pictures on its screen?

Answer: **Monitor**

6. What is the shortcut key for refreshing the computer?

Answer: **F5**

7. What is the full form of LCD?

Answer: **Liquid Crystal Display**

8. What is the correct abbreviation of COMPUTER?

Answer: **commonly operated machines used in Technical and Research**

9. Which mouse click is used to select an item?

Answer: **Left click**

10. Which device is used to control video games?

Answer: **Joystick**

11. What does 'WWW' stand for?

Answer: **World Wide Web**

12. A full form of email is

Answer: **Electronic mail**

13. The information that we store in the computer is known as

Answer: **Data**

14. Which device is also called a pointing device?

Answer: **Mouse**

15. What is a computer display after processing the data?

Answer: **Output**

16. Which keys are either used alone or in combination with other keys to perform certain actions?

Answer: **Control**

17. What is called a small picture that appears on desktop?

Answer: **Icon**

18. What is the full form of the DVD?

Answer: **Digital Versatile Disc**

19. What is the full form of RAM?

Answer: **Random Access Memory**

20. What is the full form of MU?

Answer: **Memory unit**

21. What are the two parts of a computer?

Answer: **Hardware and Software**

22. Software is a set of _____

Answer: **Programs**

23. What is a part of the system software?

Answer: **Operating System**

24. What is used to give commands to the computer?

Answer: **Input Device**

25. A process is a _____

Answer: **program in the execution.**

26. ALU stands for?

Answer: **Arithmetic Logic Unit**

27. Who invented the first electromechanical computer, MARK-1?

Answer: **Howard Aiken**

28. Which technology is used in compact disks?

Answer: **Laser technology**

29. What is the full form of ROM?

Answer: **Read only Memory**

30. What is the name of the first invented digital computer?

Answer: **ENIAC**

31. Who has made transistors?

Answer: **John Bardeen**

32. The first mass-produced mechanical calculation device was:

Answer: **Arithometer**

33. In the second generation, which type of memory was used to store data?

Answer: **Magnetic core**

34. Who made the world's first electronic calculator using a telephone relay, light bulbs, and batteries?

Answer: **George Stibbitts**

35. Which of the following features of a computer enables it to perform any task without any human intervention?

Answer: **Automatic (UPPCL 2021)**

36. Who developed the concept of email?

Answer: **Ray Tomlinson**

37. Which of the following computers is used in the weather forecasting?

Answer: **Super computers**

38. Who is the father of the internet?

Answer: **Vint Cerf**

39. Who introduced the concept of a 'stored program'?

Answer: **John von Neumann**

40. Where and when was India's first computer installed?

Answer: **Indian Statistical Institute, Kolkata, 1955**

41. Who are the real founders of the Microsoft company?

Answer: **Bill gates and Paul Allen**

42. In which generation was the transistor used?

Answer: **Second Generation**

43. IC used in computer chip is

Answer: **Silicon**

44. John Napier is the inventor of

Answer: **Logarithm**

45. What does the WAN stand for?

Answer: **Wide Area Network**

46. The world's first microprocessor was introduced in

Answer: **The Intel 4004 was released in November 1971**

47. The memory unit that communicates directly with the CPU is called?

Answer: **Main Memory**

48. What is the full name of OSI?

Answer: **Open Systems Interconnection**

49. The built-in memory of computer is called

Answer: **ROM**

50. What is cloud computing?

Answer: **Storing and accessing data over the internet**

51. What is the full form of USB?

Answer: **Universal Serial Bus**

52. What is malware?

Answer: **Malicious software designed to harm a computer**

53. What does HTML stand for?

Answer: **HyperText Markup Language**

54. What is a pixel?

Answer: **The smallest unit of a digital image**

55. All mathematical and logical functions in the computer are done by?

Answer: **Arithmetic and Logical Unit**

56. The first program that runs on a computer when the computer boots up is?

Answer: **Operating System**

57. What is the full form of VIRUS?

Answer: **Vital Information Resources Under Siege**

58. What does IBM stand for?

Answer: **International Business Machines**

Computer GK Questions for Competitive Tests (MCQ)

1. Which of the following languages does the computer understand?

- a) Java
- b) Python
- c) Binary Language (Correct Answer)
- d) HTML

2. Which of the following is not a characteristic of a computer?

- a) Speed
- b) Accuracy
- c) I.Q (Correct Answer)
- d) Automation

3. What is the smallest unit of data in a computer?

- a) Byte
- b) Bit (Correct Answer)
- c) Kilobyte
- d) Megabyte

4. Which of the following is designed to control the operations of a computer?

- a) System software (Correct Answer)
- b) Application software
- c) Utility software
- d) Database software

5. Which of the following are physical devices of a computer?

- a) Software
- b) Hardware (Correct Answer)
- c) Operating system
- d) Firmware

6. Which of the following devices provide communication between a computer and the outer world?

- a) Memory devices
- b) Input/output devices (Correct Answer)
- c) Storage devices
- d) Power supply

7. Who can access the server?

- a) End-user
- b) Web client (Correct Answer)
- c) Administrator
- d) Router

8. Which type of computer is mostly used for automatic operations?

- a) Digital
- b) Analog
- c) Hybrid (Correct Answer)
- d) Mainframe

9. Which of the following is not a type of computer on the basis of operation?

- a) Analog
- b) Digital
- c) Remote (Correct Answer)
- d) Hybrid

10. Which of the following is not an example of software?

- a) Operating system
- b) Mouse (Correct Answer)
- c) MS Office
- d) Database

11. Which of these is an output device?

- a) Mouse
- b) Keyboard
- c) Monitor (Correct Answer)
- d) Joystick

12. Enter key is used to:

- a) Delete the text
- b) Start a new document
- c) Jump to the next line (Correct Answer)
- d) Close the application

13. Which of the following monitors consumes the least power?

- a) CRT
- b) LED (Correct Answer)
- c) LCD
- d) Plasma

14. Which is not a storage device?

- a) Hard Disk
- b) CD-ROM
- c) Printer (Correct Answer)
- d) USB Drive

15. Which option is used to turn off the computer?

- a) Log Out
- b) Sleep
- c) Shutdown (Correct Answer)
- d) Restart

16. Which key is used to type text in capital letters?

- a) Enter
- b) Tab
- c) Caps Lock (Correct Answer)
- d) Shift

17. What is used to copy pictures and text into a computer?

- a) Printer
- b) Scanner (Correct Answer)
- c) Mouse
- d) Monitor

18. What is connected to a computer to take pictures?

- a) Scanner
- b) Web Camera (Correct Answer)
- c) Printer
- d) Keyboard

19. What is the smallest unit of information?

- a) Byte
- b) Bit (Correct Answer)
- c) Kilobyte
- d) Megabyte

20. Which of the following is the most powerful type of computer?

- a) Personal Computer
- b) Mainframe
- c) Supercomputer (Correct Answer)
- d) Workstation

21. Where is India's supercomputer 'PARAM' located?

- a) Mumbai
- b) Pune (Correct Answer)
- c) Delhi
- d) Bangalore

22. In which generation of computers were vacuum tubes used for circuits?

- a) Second
- b) Third
- c) First (Correct Answer)
- d) Fourth

23. Which of the following American companies is called Big Blue?

- a) Microsoft
- b) Apple
- c) IBM (Correct Answer)
- d) Google

24. What is the name of India's first computer?

- a) Vikram
- b) Param
- c) Siddhartha (Correct Answer)
- d) Shakti

25. What is the duration of one basic cycle in a typical supercomputer?

- a) 4-20 nanoseconds (Correct Answer)
- b) 1-5 microseconds
- c) 10-30 milliseconds
- d) 100-200 nanoseconds

26. Which company developed the quiz-time format?

- a) IBM
- b) Microsoft
- c) Apple (Correct Answer)
- d) Oracle

27. Second-generation computers were developed in:

- a) From 1946 to 1955
- b) From 1956 to 1965 (Correct Answer)
- c) From 1966 to 1975
- d) From 1976 to 1985

28. What is the computer technology that performs more than one task at a time called?

- a) Multitasking (Correct Answer)
- b) Multithreading
- c) Multiprocessing
- d) Time-sharing

29. Ctrl, Shift, and Alt keys are called?

- a) Function keys
- b) Navigation keys
- c) Modifier keys (Correct Answer)
- d) Arrow keys

30. Which input device is used to control the velocity on the screen?

- a) Mouse
- b) Joystick (Correct Answer)
- c) Keyboard
- d) Trackball

31. Which among the following is not magnetic storage?

- a) Floppy Disk
- b) Hard Disk
- c) Magnetic Tape
- d) Memory Card (Correct Answer)

32. How many bits make one byte?

- a) 4 bits
- b) 8 bits (Correct Answer)
- c) 16 bits
- d) 32 bits

33. The process of transferring files from the Internet to your computer is called?

- a) Uploading
- b) Sharing
- c) Downloading (Correct Answer)
- d) Streaming

34. Kilobyte is equal to how many bytes?

- a) 1000 bytes
- b) 1024 bytes (Correct Answer)
- c) 100 bytes
- d) 2048 bytes

35. Who invented the first mechanical calculator?

- a) Charles Babbage
- b) Blaise Pascal (Correct Answer)
- c) Alan Turing
- d) Gottfried Leibniz

36. An address given to a computer connected to a network is called?

- a) URL
- b) IP Address (Correct Answer)
- c) MAC Address
- d) Network ID

37. Which technology is used in a CD-ROM drive?

- a) Magnetic
- b) Optical (Correct Answer)
- c) Electrical
- d) Solid-state

38. A program that translates high-level language to machine-level language is called?

- a) Assembler
- b) Interpreter
- c) Compiler (Correct Answer)
- d) Translator

39. The process to find an error in a software code is called?

- a) Debugging (Correct Answer)
- b) Compiling
- c) Executing
- d) Modifying

40. What contains specific rules and words that express the logical steps of an algorithm?

- a) Program
- b) Syntax (Correct Answer)
- c) Flowchart
- d) Logic

41. Data that is copied from an application is stored in?

- a) Hard Drive
- b) Cache Memory
- c) Clipboard (Correct Answer)
- d) Registers

42. C, Java, PHP, and C++ are examples of?

- a) Operating Systems
- b) Database Systems
- c) Programming Languages (Correct Answer)
- d) Compilers

43. What is the scientific name of the computer?

- a) Digital sapiens
- b) Mechanical sapiens
- c) Silico sapiens (Correct Answer)
- d) Electric sapiens

44. Which was the first web browser?

- a) Internet Explorer
- b) Mosaic
- c) World Wide Web (Correct Answer)
- d) Netscape Navigator
